1.0 EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was conducted by Anderson Geological, Inc.(AGI) for the property located at Government Lot 12, Map 1S1014 00100, Tillamook County, Oregon. The project was performed in general accordance with ASTM Standard E1527-13, *Standard Practice for Environmental Site Assessments; Phase I Environmental Site Assessment Process.*

This Phase I ESA was completed for Tillamook County to satisfy a requirement for a grant from the Oregon Watershed Enhancement Board (OWEB) to be used for acquiring the property as part of the Southern Flow Corridor (SFC) project. The purpose of the SFC project is to permanently restore and protect tidal wetland habitats at the confluence of the Wilson and Trask Rivers.

The subject property consists of a small wedge of property located at the confluence of the Wilson River and Blind Slough. The property is undeveloped land with the remnants of a low earthen dike running along the length of the site The property is in an area of marshy grasslands within the flood plain of the Wilson River.

The subject property was most recently purchased by the Gienger family in 1969 along with the rest of tax lot 00100, which includes the family farm operation, located across the Wilson River to the north. Given the isolated location of the property from rest of their land to the north, the family only used the subject property occasionally for duck hunting.

No *recognized environmental conditions* were identified in connection with the subject property. No further investigation is recommended

2.0 INTRODUCTION

2.1 Location and Client Information

Site Location:	Client Data:
Govt. Lot 12, Map 1S1014 00100	Tillamook County, Oregon
Tillamook, Oregon 97141	201 Laurel Ave.
	Tillamook, Oregon 97141
	Attn: Mr. Paul Levesque

2.2 Purpose

This Phase I Environmental Site Assessment was conducted by AGI for the abovereferenced site. The purpose of the Phase One was to identify *recognized environmental conditions* associated with the subject property to assess the likelihood that contamination from *hazardous substances* or *petroleum products* may exist on the subject property either from past or present use of the subject property or nearby properties. The project was performed in general accordance with the ASTM Standard Practice for conducting Phase I Environmental Site Assessments (Designation E1527-13). This practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability.

2.3 Scope of Work

The scope of work for the project included the following elements:

- 1. Subject property identification and visual survey for the presence of hazardous substances and petroleum products;
- 2. Review federal, state and local agency listings for releases of hazardous substances, institutional controls and engineering controls on the subject property and adjacent areas;
- 3. Review of historic maps, historic occupants and the nature of past property usage;
- 4. Review of available soils, geology or environmental reports for the subject property or in the vicinity of the subject property;
- 5. Interviews with persons knowledgeable about the subject property;
- 6. Preparation of the report which summarizes observations, sources utilized, and findings, conclusions and recommendations relating to the presence or likely presence of hazardous substances or petroleum products on the subject property.

The reader is referred to AGI's proposal/contract (Appendix D) to provide a Phase I Environmental Site Assessment for a description of our scope of work.

2.4 Non-ASTM Method Scope of Work

No non-ASTM issues were included in the scope of work.

2.5 Significant Assumptions

This study is intended to reduce, but not eliminate, uncertainty regarding the potential for *recognized environmental conditions* in connection with the subject property, within reasonable limits of time and cost. It is assumed that the user has provided AGI with any specialized knowledge or experience that is material to *recognized environmental conditions* in connection with the property, including the reason why the property may have a significantly lower purchase price than comparable properties, if applicable (ASTM E1527-13, Section 6.5).

In general, groundwater flow direction has been determined based on topography in the vicinity of the subject property, i.e. the assumption that shallow groundwater flow will follow topography, or on other available resources. No site-specific field measurements of groundwater flow direction, e.g. installation of groundwater monitoring wells, have been performed.

Based on this interpretation, AGI has reviewed regulatory agency information for sites that 1) are located in a presumed upgradient direction that, further based on proximity and knowledge of potential contaminant fate and transport, may present a potential to impact the subject property, and 2) are located in an area such that vapors of volatile contaminants are capable of encroaching on the subject property.

2.6 Limitations and Exceptions

Unless noted otherwise, the scope of work is limited to elements of the ASTM standard. Non-ASTM scope issues (e.g. radon, compliance audits, geotechnical investigations, etc.) were not addressed unless noted above in Section 2.4 and in our contract provided in Appendix D.

The ASTM method does not require a search interval of less than 5 years. This search interval is not guaranteed to identify all prior tenants or occupants of the subject property.

The term "Recognized Environmental Conditions" is defined in paragraph 3.2.74 of ASTM E 1527-13 and the complete text is included in the Glossary of this document. Users of this report are encouraged to review the report in its entirety and specifically to consider the existence of all site conditions described in this report and not merely those classified herein as *recognized environmental conditions*.

When an assessment is completed without surface exploration or chemical screening of soil and groundwater beneath the site, as in this study, no statement of scientific certainty can be made regarding latent subsurface conditions, which may be the result of on-site or off-site sources. AGI is not able to represent that the site or adjoining land contains no hazardous waste, oil, or other latent conditions beyond that detected or observed by AGI during the study.

The findings and conclusions of this report, therefore, are not scientific certainties, but rather, are based on professional judgment concerning the significance of the data gathered during the course of the Phase I. The conclusions in this report are not to be considered a legal opinion as to the client's duty concerning due diligence relating to potential liabilities in leasing, owning, or purchasing real estate. This report is based on information provided by others. Anderson Geological is not responsible for inaccuracies or lack of truthfulness of owners, prior owners, or others who are interviewed.

The ASTM standard requires that the history of the subject property be traced to the first developed use. This requires that the investigator review sources that are *publicly available*, *are available within a reasonable time and cost, and are reasonably ascertainable and considered practically reviewable*, as defined under the ASTM standard. In addition, these criteria are applied keeping in mind sources that are likely to provide information concerning possible recognized environmental conditions at the subject property. AGI has reviewed all sources of information that we consider meeting these criteria. In cases where the history of the property is not traced to prior to its first developed use, this condition is considered a *data failure*, and not an exception to the required scope of work.

2.7 Special Terms and Conditions

There are no special terms and conditions.

2.8 User Reliance

AGI acknowledges that the client ("User") may rely upon the information, findings, opinion and conclusions set forth in this report, subject to the conditions and limitations contained in this report and as set forth in our contract (see Appendix D). The report provides information on the property only as specified in the scope of work and is based on subject property conditions at the time of the study. It was prepared in accordance with the standard of care of our profession. No warranties, expressed or implied, are made.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

Address, City, State:	(no situs address) Tillamook, Oregon, Government Lot 12
Map, Tax Lot:	Tillamook Co. Map No. 1S1014, Tax lot 100
Township, Range, Section:	T1S, R10W Section 14 (Willamette Meridian)

A Site Location Map is included with this report under the Figures tab.

3.2 Site and Vicinity General Characteristics

The subject property is located on the south bank of Blind Slough at its confluence with the Wilson River. The property is located on the floodplain and is bounded to the north and west by Blind Slough and the Wilson River, respectively, to the south by a unnamed extension of Goodspeed Road and to the east by Blind Slough a undeveloped marsh.

The Site Plan is included under the *Figures* tab. Photographs taken during the recent site reconnaissance are included under the *Photographs* tab.

3.3 Current Use of the Subject Property

The subject property is currently bare, undeveloped land that is partially covered by upland vegetation and partially by native wetland vegetation and grasses on a lower-lying area adjacent to the waterway.

3.4 Description of Structures, Roads, Other Improvements on the Site

The subject property is bare, undeveloped land. The property is bounded to the south by an extension of Goodspeed Road, which is a primitive dirt road. Vehicle access to the road is controlled by a locked gate on Goodspeed Road located 1/2 mile to the east.

4.0 USER-PROVIDED INFORMATION

4.1 Title Records

A preliminary title report from Ticor Title Company of Oregon (dated March 27, 2015) was provided to Anderson Geological by Tillamook County. No environmental liens, or other issues that identify potential recognized environmental conditions, were listed on the title report.

4.2 Environmental Liens or Activity and Use Limitations

The User of this report is identified as Tillamook County, Oregon. Mr. Paul Levesque, Chief of Staff, Tillamook County Board of Commissioners, provided the user-provided information for this report. Mr. Levesque indicated having no knowledge of environmental liens against the subject property, or limitations related to environmental conditions.

4.3 Specialized Knowledge

Mr. Levesque indicated that he has no specialized knowledge of the subject property.

4.4 Commonly Known or Reasonably Ascertainable Information

Mr. Levesque indicated having no commonly known or reasonably ascertainable information that may be material to AGI's identification of recognized environmental conditions on the subject property.

4.5 Valuation Reduction for Environmental Issues

Mr. Levesque stated that the property has not been devalued, compared to comparable properties, as a result of environmental conditions at the subject property or surrounding properties.

4.6 Owner, Property Manager and Occupant Information

The subject property is currently owned, and managed by Gienger Farms, Inc.

4.7 Reason for Performing Phase One

This Phase I Environmental Assessment was requested by Tillamook County to identify possible recognized environmental conditions prior to acquiring the subject property by a grant from the Oregon Watershed Enhancement Board (OWEB) through the Southern Flow Corridor Project.

4.8 Other Information Provided by the User

No other information was provided by the User.

5.0 RECORDS REVIEW

5.1 Standard Environmental Record Sources

A search of State environmental agency and U.S. Environmental Protection Agency (EPA) listings was performed (a copy of the database search report is included in Appendix B). The purpose of this search is to identify potential, suspected, or known sources of contamination on, or in the area of, the subject property. The database searched the various agency listings for different approximate minimum search distances from the subject property, based upon the relative potential threat represented by each listing as established in the ASTM method.

Only those sites that appear to pose a potential environmental concern to the subject property are discussed below. All other listed sites are considered to be of low concern to the subject property based on presumed groundwater flow direction, distance from the site, regulatory status (e.g. the agency file is closed) or other physical factors.

The ASTM standard requires that, if the subject property or adjoining property is identified in the government records search, then pertinent regulatory records or files should be reviewed, at the discretion of the environmental professional. If the environmental professional's opinion is that a file review is not warranted, the Phase I ESA report must include justification for not conducting the review. As an alternative to a file review, alternative sources such as user-provided records, records from local government agencies, and interviews with regulatory officials can be conducted.

<u>Federal NPL</u>

The National Priorities List (NPL) is the Environmental Protection Agency (EPA) database of uncontrolled or abandoned hazardous waste sites identified for priority remedial actions under the Superfund Program.

The subject property is not listed as a federal NPL site. No NPL sites are located within one mile of the subject property.

Federal CERCLIS List

The Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) list is a compilation of sites that the EPA has investigated or is currently investigating for a release or threatened release of hazardous substances.

The subject property is not listed as a CERCLIS facility. No CERCLIS sites are listed within one-half mile of the subject property.

Federal CERCLIS NFRAP Sites List

The CERCLIS No Further Remedial Action Planned (NFRAP) List is a compilation of sites that the EPA has investigated, and has determined that the facility does not pose a threat to human health or the environment, under the CERCLA framework.

The subject property is not listed as a CERCLIS-NFRAP facility. No CERCLIS-NFRAP sites are listed within ¹/₂ mile of the subject property.

Federal Resource Conservation and Recovery Act (RCRA) CORRACTS TSD Facilities List

The EPA Resource Conservation and Recovery Act (RCRA) Program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Treatment, Storage and Disposal (TSD) database is a compilation by the EPA of reporting facilities that treat, store or dispose of hazardous waste. The CORRACTS database is the EPA's list of treatment storage or disposal facilities subject to corrective action under RCRA.

The subject property is not listed as a RCRA CORRACTS TSD facility. No RCRA CORRACTS TSD facility are listed within one mile of the subject property.

<u>Federal Resource Conservation and Recovery Act (RCRA) Non-CORRACTS TSD</u> <u>Facilities List</u>

The RCRA TSD database is a compilation by the EPA of reporting facilities that treat, store or dispose of hazardous waste.

The subject property is not listed as a RCRA-TSD facility. No RCRA TSD sites are listed within one-half mile of the subject property.

Federal RCRA Generator List

The RCRA program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Generators database is a compilation by the EPA of reporting facilities that generate hazardous waste.

The subject property is not listed as a RCRA facility. No RCRA Generator facilities are listed within one-quarter mile of the subject property.

Federal Emergency Response Notification System (ERNS)

The Emergency Response Notification System (ERNS) is a national database used to collect information or reported release of oil or hazardous substances.

No ERNS sites were listed on the subject property or on the adjacent properties.

State CERCLIS-Equivalent List

The Oregon DEQ maintains a State CERCLIS-equivalent list (STATE) of sites under investigation that could be actually or potentially contaminated and presenting a possible threat to human health and the environment.

The subject property is not listed as a State CERCLIS facility. No STATE sites are listed within one mile of the subject property.

Solid Waste/Landfill Facilities (SWLF)

A database of SWLF is prepared by Oregon DEQ.

The subject property is not listed as a SWLF facility. No SWLF facilities are listed within one-half mile of the subject property.

State Leaking Underground Storage Tank List (LUST)

The Oregon DEQ compiles lists of all leaks of hazardous substances from underground storage tanks.

The subject property is not listed as a LUST facility. No LUST sites are listed within onequarter mile of the subject property.

State Underground Storage Tank List (UST)

The Oregon DEQ compiles a list of registered UST locations. This list does not include heating oil tanks, which are exempt from registration.

The subject property is not listed as an UST facility. No UST sites are listed within onequarter mile of the subject property.

<u>State Spills</u>

No spills are listed on or adjacent to the subject property.

Institutional and Engineering Controls (IC/EC), Activity Use Limitations (AULs)

Databases of *Institutional Controls* (IC) and *Engineering Controls* (EC) are maintained by some federal, state or local environmental agencies for purposes of tracking sites that may contain residual contamination and AULs. Oregon DEQ does not maintain such a list. The presence of AULs on a property can indicate whether a recognized environmental condition exists on the property. The User must comply with AULs to maintain the *Innocent Landowner Defense*.

The subject property is not listed as a site with institutional controls or engineering controls. No IC/EC facilities are listed within $\frac{1}{2}$ mile of the subject property.

5.2 Additional Environmental Record Sources

Oregon DEQ Online Facility Profiler

This DEQ web page was reviewed on September 18, 2015; no other sites were listed within the prescribed distances from the subject property beside those given in the EDR database report.

State/Local Health Department

According to the Oregon Office of Public Health Systems and the Oregon State Fire Marshal, no illegal drug lab activity has been reported on the subject property.

Fire Department

The Tillamook Fire District does not maintain records of underground fuel storage tanks (USTs), spills, or hazardous materials incidents.

State-Registered Water Well Logs

The Oregon Water Resources Department n-line well log database has no records of water wells, monitoring wells or geotechnical borings on the subject property.

Local Electric Utility Company

No electrical transformers were observed on the subject property.

5.3 Physical Setting Source(s)

Topography

The USGS 7.5 minute topographic map for the site indicates that the local topography is generally flat, at an elevation of less than 10 feet above mean sea level. The map shows an unpaved road (extension of Goodspeed Road) along the south end of the subject property and a small structure adjacent to the southwest corner of the site.

Soils and Geology

The regional geology consists of flood plain and terrace alluvium overlying Tertiary volcanic deposits. The area is underlain by floodplain and marine bay mud deposits with layers of sand and gravelly sand and organic matter to depths of more than 150 feet, These deposits are generally underlain by marine sedimentary deposits.

Surface Water

The nearest surface water body is the Wilson River, located adjacent to the west and Blind Slough, located adjacent to the north.

Groundwater

Based on site observations, groundwater is expected to be present at depths of 0-5 feet below ground surface (bgs), varying with the degree of precipitation. Given the lack of topographic features in the area, the groundwater surface is expected to be relatively flat, with variable directions of flow.

5.4 Historical Use Information – Subject Property

Aerial Photographs

Aerial photographs maintained by the University of Oregon Map Library, Eugene, Oregon, were reviewed for the years 1939, 1953, 1960, 1967, 1970, 1980, 1994 and 2009. Copies of the aerial photographs are included in Figures 3-10.

1939: The subject property appears at the confluence of Blind Slough and the Wilson River. a dike appears to order the south banks of both water bodies and cutting across the south part of the subject property. Blind Slough has encroached on the east boundary of the subject property through bank erosion. Four small buildings appear on or adjacent to the southwest corner of the subject property, along the Wilson River. Other adjacent properties appear to be bare, undeveloped marsh land.

1953: Only one of the four buildings remain near the southwest corner of the subject property. The dike remains on the subject property.

1960: There are no significant, observable changes to the subject property or adjacent properties.

1967: There are no significant, observable changes to the subject property or adjacent properties.

1970: There are no significant, observable changes to the subject property or adjacent properties.

1980: The extension of Goodspeed Road appears to the south of the subject property. A small building appears at the end of the road, along the east bank of the Wilson River.

1994: There are no significant, observable changes to the subject property or adjacent properties.

2009: The building at the end of the road is no longer present. A short dirt roadway runs onto the subject property from road.

Fire Insurance Maps

Historical Sanborn Fire Insurance Maps for Salem, Oregon are maintained by the Sanborn Map Company, which offers their maps on-line through contract with the Multnomah County, Oregon public library. The maps include general historical information regarding occupants, addresses, and prior land uses. The maps included no coverage of the subject property.

Local Street Directories

Polk City Directories for Tillamook, Oregon, are located at the Tillamook County Library. The directories were reviewed for information regarding past occupants at the subject property and adjoining properties. The following range of street addresses was searched:

ADDRESS	LISTING
(no address)	Fuhrman, Janet (1997)
460 Goodspeed Rd. N.	Filbeck, Clarence (1997)
955 Goodspeed Rd. N.	Tohl, Richard E. (1997)

Building Department Records

Records of historic building permits and planning activities for the subject property were requested from the Tillamook County Department of Community Development. Their file for the subject property contained no information relevant to the identification of recognized environmental conditions on the subject property.

Tillamook County Assessor's Office Records

Appraisal records for the subject property were obtained from the Tillamook County Assessor's office. The subject property (Government Lot 12) is part of tax lot 00100 which includes the farming operations of Gienger Farms located north of the Wilson River. The appraisal file for tax lot 00100 included significant information regarding the farm buildings but no specific information regarding Government Lot 12.

Copies of the assessor's records are included in Appendix A.

6.0 SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

A site reconnaissance was conducted by Erik Anderson of AGI on August 25, 2015, to observe and document site conditions and visible indications of existing environmental conditions. Mr. Anderson was unaccompanied by others.

All areas of the subject property were accessed except for areas of dense vegetation. Photographs taken during the site reconnaissance are included under the *Photographs* tab.

6.2 General Site Setting

Topography

The subject property is generally level and is located in an area of tidal marshes adjacent to the Wilson River and Blind Slough. A low earthen dike runs east to west along the length of the site.

Structures

The subject property is bare, undeveloped land.

Heating/Cooling System

The subject property is bare, undeveloped land.

Roads

There are no roads on the subject property. Vehicle access to the subject property is via the unnamed extension of Goodspeed Road, located immediately south of the subject property. Vehicle access to this road is controlled by a locked gate on Goodspeed Road located ½ mile east of the subject property.

Utilities

Water Supply:	None
Sewage System:	None
Storm water:	None
Electrical Utility:	None

6.3 Exterior and Interior Observations

Hazardous Substances, Petroleum Products or Unidentified Containers

No hazardous substances, petroleum products, or unidentified containers were observed on the subject property.

Underground and Above-Ground Storage Tanks (USTs and ASTs)

No fill pipes, vent lines or other features associated with underground tanks were observed on the subject property.

PCBs

Electrical transformers, capacitors, and other electrical equipment may contain polychlorinated biphenyls (PCBs) in the dielectric insulating fluids. The federal Toxics Substances Control Act (TSCA) prohibited the domestic manufacture of PCBs after 1979, therefore oil-filled electrical equipment manufactured in the United States before 1979 may contain PCBs.

No electrical transformer were observed on subject property.

Floor drains, Catch basins, Sumps, Oil-Water Separators

No floor drains, sumps or oil-water separators were observed on the subject property.

Solid Waste Disposal

No evidence of improper solid waste disposal was observed on the subject property.

6.4 Current Use of Adjoining Properties

North: Blind SloughSouth: Primitive dirt road, wooded marsh/wetland beyondEast: Blind SloughWest: Wilson River

These properties were viewed from the subject property or the nearest public right-ofway to the extent that current uses are visually and/or physically observable.

7.0 INTERVIEWS

7.1 Interview with Owner

The Owner Environmental Questionnaire was completed by Mr. David Gienger (owner). A copy of the questionnaire is included in Appendix C. On September 20, 2015, Mr. Gienger provided the following information:

- The subject property, along with the rest of tax lot 100, was purchased by his father in 1969. There were no improvements on the property at that time and none were added since. The property has only been used by their family for hunting ducks.
- The building that appeared near the southwest corner of the subject property in aerial photographs from the 1980's and 1990's was a house that was owned by Mr. Russ Hamacheck. He doesn't know anything about the house or when it was demolished.

7.2 Interview with Site Manager

See Interview with Owner above.

7.3 Interviews with Occupants

The subject property is undeveloped and unoccupied.

7.4 Interview with Local Government Officials

According to Dave Mattison, Tillamook City Planner, the subject property is located outside of the Tillamook city limits and their office has no information regarding the subject property.

Staff at the Tillamook Department of Community Development provided AGI with the planning file for the subject property.

7.5 Interview with Others

No other persons were interviewed for this report.

8.0 EVALUATION

8.1 Findings and Opinion

Recognized Environmental Conditions

No recognized environmental conditions were identified in connection with the subject property.

Historical Recognized Environmental Conditions

No *historical recognized environmental conditions* were identified in connection with the subject property.

Controlled Recognized Environmental Conditions

No *controlled recognized environmental conditions* were identified in connection with the subject property.

Other Issues of Concern

No other issues of concern were identified.

Data Gaps

No data gaps were identified.

8.2 Conclusions

AGI has performed this Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of the property located at Government Lo12, Map 1S1014, Tillamook County, Oregon. Any exceptions to, or deletions from, this practice are described in Section 2.6 of this report.

Based on the finding of this study, this assessment has revealed no evidence of recognized environmental conditions with the property. No further investigation is recommended.

8.3 Signature of Environmental Professional

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Erik Anderson, R.G. Hydrogeologist

8.4 Qualifications of Environmental Professional

The resume of the Environmental Professional is included in Appendix E.

Glossary

Phase I Environmental Site Assessment Glossary

The following is an excerpted list of terms defined in the ASTM standard E1527-05, section 3.0. See the ASTM standard for a complete list of terms.

Adjoining Properties- Any real property or properties the border of which is contiguous or partially contiguous with that of the subject property, or that would be contiguous or partially contiguous with the subject property but for a street, road, or other public thoroughfare separating them.

All Appropriate Inquiry- That inquiry constituting "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial and customary practice" as defined in CERCLA, 42 USC 9601 (35) (B), that will give a party to a commercial real estate transaction for one of the threshold criteria for satisfying the LLPs to CERCLA liability (42 USC §9601 (35)(A) and (B), §9607 (b)(3),), §9607 (q) and §9607 (r)), assuming compliance with other elements of the defense.

Approximate Minimum Search Distance- The area for which records must be obtained and reviewed pursued pursuant to Section 8 of ASTM Standard Practice E 1527-05 subject to the limitations provided in that section. This may include areas outside the subject property and shall be measured from the nearest property boundary.

Bona Fide Prospective Purchaser Liability Protection- (42 USC §9607 (r)- a person may qualify as a bona fide prospective purchaser if, among other requirements, such person made "all appropriate inquiries into the previous ownership and uses of the facility in accordance with generally accepted good commercial and customary standards and practices." Knowledge of contamination resulting from all appropriate inquiry would not generally preclude this liability protection. A person must make all appropriate inquiry on or before the date of purchase. There are other necessary requirements that are beyond the scope of this summary.

CERCLA- The Comprehensive Environmental Response, Compensation and Liability Act, as amended including amended by the Superfund Amendments and Reauthorization Act (SARA), 42 USC 9601 *et seq.*

Controlled Recognized Environmental Condition- A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g. as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g. property use restrictions, AULs, institutional controls, or engineering controls) a REC shall be listed in the Findings Section of the Phase I ESA report, and as a REC in the Conclusions section of the report.

Contaminated Aquifer Policy- Oregon and Washington environmental agencies will not hold a property owner liable for groundwater contamination that has migrated from an upgradient property. This indemnity is granted under the assumption that the property owner is not responsible for the release of the contamination, is not financially associated with the property from which the contamination originated, and did nothing to exacerbate the problem. Certain restrictions might be placed on the use of groundwater on the site (e.g. an irrigation or drinking water well could not be

Phase I Environmental Site Assessment Glossary

installed on the property). The property owner should ensure that the contamination does not present a health risk to onsite occupants.

Contiguous Property Owner Liability Protection- (42 USC §9607 (q)) A person may qualify for the contiguous property owner liability protection if, among other requirements, such person owns real property that is contiguous to, and that is or may be contaminated by hazardous substances from other real property that is not owned by that person. Furthermore, such person conducted all appropriate inquiry at the time of acquisition of the property and did not know or have reason to know that the property was or could be contaminated by a release or threatened release from the contiguous property. The all appropriate inquiry must not result in knowledge of contamination. If it does, then such person would not be eligible for the contiguous property owner liability protection. There are other necessary requirements that are beyond the scope of this summary.

Data Gap- A lack or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, and inability to conduct the site visit) and interviews (for example, the inability to interview the key site manager, regulatory officials, etc.).

De minimis *condition*- Condition that generally does not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not *recognized environmental conditions*.

Engineering Controls (EC)- Physical modifications to a site or facility (for example capping, slurry walls, or point of use water treatment) to reduce or eliminate the potential for exposure to hazardous substances or petroleum products in the soil or groundwater on the property. Engineering controls are a type of activity and use limitation (AUL).

Hazardous Substance- A substance defined as a hazardous substance pursuant to CERCLA 42 USC 9601 (14), as interpreted by EPA regulations and the courts: "(A) any substance designated pursuant to Section 1321 (b)(2)(A) of Title 33, (B) any element, compound, mixture, solution, or substance designated pursuant to Section 9602 of this title, (C) any hazardous waste having the characteristics identified under or pursuant to Section 3001 of the Solid Waste Disposal Act (42 USC 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Act (42 USC 6901 *et seq.*) has been suspended by act of Congress), (D) any toxic pollutant listed under Section 1317(a) of Title 33, (E) any hazardous air pollutant listed under Section 112 of the Clean Air Act (42 USC 7412), and (F) any imminently hazardous chemical substance or mixture with respect to which the administrator (of EPA) has taken action pursuant to Section 2606 of Title 15."

Note: The term *hazardous substances*, as it is used in this report, is used to describe both *hazardous substances* and *petroleum products*.

Historical recognized environmental condition- An environmental condition which in the past would have been considered a recognized environmental condition, but which may or may not be considered a recognized environmental condition currently. If a past release of any hazardous substances or petroleum products has occurred in connection with the property and has been

Phase I Environmental Site Assessment Glossary

remediated, with such remediation accepted by the responsible regulatory agency (for example, as evidenced by the issuance of a no further action letter or equivalent), this condition should be considered an historical recognized environmental condition.

Innocent Landowner Defense- (42 USC §§9601 (35) and 9607(b)(3))- A person may qualify as one of three types of innocent landowners: (i) a person who "did not know and had no reason to know" that contamination existed on the property at the time the purchaser acquired the property; (ii) a government entity that acquired the property by escheat, or through any other involuntary transfer or acquisition, or through the exercise of eminent domain authority by purchase or condemnation; and (iii) a person who "acquired the facility buy inheritance or bequest." One of the requirements of this defense is that the parties make "all appropriate inquiry" on or before the date of purchase. Furthermore, the all appropriate inquiry must not have resulted in knowledge of the contamination. If it does, then the person would not be eligible for the innocent landowner defense.

Institutional Controls (IC)- A legal or administrative restriction (e.g. deed restrictions, restrictive covenants, easements, or zoning) on the use of, or access to, a site or facility to (1) reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the property, or (2) to prevent activities that could interfere with the effectiveness of a response action, in order to insure maintenance of a condition of no significant risk to public health or the environment. An institutional control is a type of Activity and Use Limitation (AUL).

Petroleum Products- Products included within the meaning of the terms within the *petroleum exclusion* to CERCLA, 42 USC §9601 (14), as interpreted by the courts and EPA, that is: petroleum, including crude oil or any fraction thereof that is not otherwise specifically listed under Subparagraphs (A) through (F) of 42 USC §9601 (14), natural gas natural gas liquids, liquefied natural gas, and synthetic gas usable for fuel (or mixtures of natural gas and synthetic gas). (The word "fraction" refers to certain distillates of crude oil including gasoline, kerosene, diesel oil, jet fuels, and fuel oil pursuant to *Standard Definitions of Petroleum Statistics, American Petroleum Institute, Fourth Edition, 1988*).

Practically Reviewable- Information that is practically reviewable means that information is provided by the source in a manner and in a form that, upon examination, yields information relevant to the subject property without the need for extraordinary analysis of irrelevant data. The form of the data shall be such that the user can review the records for a limited geographical area.

Recognized Environmental Condition- The presence or likely presence of any *hazardous* substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any *hazardous substances* or *petroleum products* into structures on the property or into the ground, groundwater, or surface water of the property. The term includes *hazardous substances* or *petroleum products* even under conditions in compliance with laws.

Subject Property- The real property that is the subject of this environmental site assessment. Real property includes buildings and other fixtures and improvements located on the property and affixed to the land.

HISTORICAL RESEARCH DOCUMENTATION, REFERENCES

Ticor Title Company PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein Ticor Title Company hereby reports that it is prepared to issue, or cause to be issued, as of the specified date, a policy or policies of title insurance describing the land and the estate or interest hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage of said policy or policies are set forth in Exhibit One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a/an Nebraska corporation.

Please read the exceptions shown or referred to herein and the Exceptions and Exclusions set forth in Exhibit One of this report carefully. The Exceptions and Exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

This preliminary report is for the exclusive use of the parties to the contemplated transaction, and the Company does not have any liability to any third parties nor any liability until the full premium is paid and a policy is issued. Until all necessary documents are placed of record, the Company reserves the right to amend or supplement this preliminary report.

PRELIMINARY REPORT

(Continued)

Order No.: 360413013405-TTAST04

EXHIBIT "A"

Government Lot 12, Section 14, Township 1 South, Range 10 West, Willamette Meridian, in Tillamook County, Oregon, bounded on the South by the South line of said Section 14, bounded on the West by Wilson River, and bounded on the North and East by Blind Slough.

AS OF THE DATE OF THIS REPORT, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN THE POLICY FORM WOULD BE AS FOLLOWS:

GENERAL EXCEPTIONS:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Facts, rights, interests or claims which are not shown by the Public Records but which could be ascertained by an inspection of the Land or by making inquiry of persons in possession thereof.
- 3. Easements, or claims of easement, not shown by the Public Records; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to water.
- 4. Any encroachment (of existing improvements located on the subject land onto adjoining land or of existing improvements located on adjoining land onto the subject land), encumbrance, violation, variation or adverse circumstance affecting the title that would be disclosed by an accurate and complete land survey of the subject land.
- 5. Any lien or right to a lien for services, labor, material, equipment rental or workers compensation heretofore or hereafter furnished, imposed by law and not shown by the public records.

SPECIFIC ITEMS AND EXCEPTIONS:

- 6. [Intentionally deleted]
- 7. The Land has been classified as Farm Use, as disclosed by the tax roll. If the Land becomes disqualified, said Land may be subject to additional taxes and/or penalties.
- 8. Regulations, levies, liens, assessments, rights of way and easements of Wilson River Water District.
- 9. Regulations, levies, liens, assessments, rights of way and easements of Tillamook Bay Habitat and Estuary Improvement District.
- 10. Any adverse claim based upon the assertion that:

a) Said Land or any part thereof is now or at any time has been below the highest of the high watermarks of Wilson River, Blind Slough and unnamed creeks in the event the boundary of said Wilson River, Blind Slough, and unnamed creeks has been artificially raised or is now or at any time has been below the high watermark, if said Wilson River, Blind Slough and unnamed creeks is in its natural state.
 b) Some portion of said Land has been created by artificial means or has accreted to such portion so created.

c) Some portion of said Land has been brought within the boundaries thereof by an avulsive movement of Wilson River, Blind Slough and unnamed creeks, or has been formed by accretion to any such portion.

- 11. Rights and easements for navigation and fishery which may exist over that portion of said Land lying beneath the waters of Wilson River, Blind Slough and unnamed creeks.
- 12. No liability is assumed as to any portion of said premises constituting tidelands.

FDOR0390.rdw

13. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: Tillamook People's Utility District Purpose: Public utilities Recording Date: October 24, 1977 Recording No: Book 253, Page 379 Affects: Exact location not specified

14. A deed of trust to secure an indebtedness in the amount shown below,

Amount: \$582,000.00 Dated: August 12, 2005 Trustor/Grantor: David L. Gienger and Freynie M. Gienger Trustee: Wells Fargo Financial National Bank Beneficiary: Wells Fargo Bank, National Association Loan No.: 3199244214 Recording Date: August 26, 2005 Recording No: 2005-007674

Affects: Subject property and other property also

15. An option to purchase said Land with certain terms, covenants, conditions and provisions as set forth therein.

Optionor: Gienger Farms, Inc. Optionee: Tillamook County Disclosed by: Option to Puchase Real Estate Recording Date: March 7, 2013 Recording No: 2013-001343

Modificiation to deed-option to purchase real estate,

Recording Date: October 6, 2014 Recording No.: 2014-004973

16. The Land as described has no access to a legally dedicated street, road or highway. In the absence of a recorded instrument creating such a right of access, said right cannot be insured.

END OF EXCEPTIONS

- A. [Intentionally deleted]
- B. [Intentionally deleted]
- C. [Intentionally deleted]
- D. [Intentionally deleted]
- E. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

F. The Company will require the following documents for review prior to the issuance of any title assurance predicated upon a conveyance or encumbrance by the corporation named below.

Name of Corporation: Gienger Farms, Inc.

- a) A Copy of the corporation By-laws and Articles of Incorporation
- b) An original or certified copy of a resolution authorizing the transaction contemplated herein.

c) If the Articles and/or By-laws require approval by a 'parent' organization, a copy of the Articles and By-laws of the parent.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

G. Note: There are no matters against the party(ies) shown below which would appear as exceptions to coverage in a title insurance product:

Parties: Tillamook County, a political subdivision of the State of Oregon

 H. Recording charge for a RESPA transaction (all transfer and loan documents): RESPA Residential Sale and Purchase \$189.00
 RESPA Residential Loan/Refinance \$136.00
 RECORDING CHARGES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

ANY ADDITIONAL FEES CHARGED BY THE TILLAMOOK COUNTY RECORDING CLERK FOR NON-CONFORMING DOCUMENTS WILL BE BILLED SEPARATE FROM THE ABOVE DESCRIBED RESPA AVERAGE RECORDING FEES.

All recordings for Tillamook County properties should be sent to:

Ticor Title Company Attention: Recorder 2211 3rd Street Tillamook, OR 97141

For many real estate transactions, Federal law requires that a settlement statement show the allocation of title insurance charges between title insurer and title insurance agent. For the transaction that is the subject of this report, the allocation is as follows:

Ticor Title Company of Oregon (Agent) 88% Chicago Title Insurance Company, a Nebraska corporation (Insurer) 12%

NOTE: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the amount, if any, set forth in the arbitration clause, all arbitratable matters shall be arbitrated at the option of either the company or the insured as to the exclusive remedy of the parties.

The following item pertains to Sale transactions only:

Note: Effective January 1, 2008, Oregon law (ORS 314.258) mandates withholding of Oregon income taxes from sellers who do not continue to be Oregon residents or qualify for an exemption. Please contact your Escrow Closer for further information.

THE FOLLOWING NOTICE IS REQUIRED BY STATE LAW: YOU WILL BE REVIEWING, APPROVING AND SIGNING IMPORTANT DOCUMENTS AT CLOSING. LEGAL CONSEQUENCES FOLLOW FROM THE SELECTION AND USE OF THESE DOCUMENTS. THESE CONSEQUENCES AFFECT YOUR RIGHTS AND OBLIGATIONS. YOU MAY CONSULT AN ATTORNEY ABOUT THESE DOCUMENTS. YOU SHOULD CONSULT AN ATTORNEY IF YOU HAVE QUESTIONS OR CONCERNS ABOUT THE TRANSACTION OR ABOUT THE DOCUMENTS. IF YOU WISH TO REVIEW TRANSACTION DOCUMENTS THAT YOU HAVE NOT YET SEEN, PLEASE CONTACT THE ESCROW AGENT. I. Note: Property taxes for the fiscal year shown below are paid in full.

Fiscal Year: 2014-2015 Amount: \$90.35 Levy Code: 0901 Account No.: 142401 Map No.: 1S1014-00-00100 CODE SPLIT

Affects: Premises and other property

EXHIBIT ONE

2006 AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (06-17-06) EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of: 1. (a) Any law, ordinance, permit or coverage of the coverage of the

- by reason of:
 (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to (i) the occupancy, use, or enjoyment of the Land;
 (ii) the character, dimensions, or location of any improvement erected on the Land;
 (iii) the subdivision of land; or
 (iii) the subdivision of land; or

- 3.
- the Land; (ii) the subdivision of land; or (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5. (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8. Defects, liens, encumbrances, adverse claims, or other matters (a) created, suffered, assumed, or agreed to by the Insured Claimant; (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

- 4.
- (c) resulting in no loss or damage to the Insured Claimant; (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. 5.
- Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured 6. Mortgage, is
 - a fraudulent conveyance or fraudulent transfer, or a preferential transfer for any reason not stated in Covered Risk 13(b) of this
- (b) a preference water for any reasonance of a system of the policy. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

SCHEDULE B- GENERAL EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- Facts, rights, interests or claims which are not shown by the Public Records but 2 which could be ascertained by an inspection of the Land or by making inquiry of persons in possession thereof.
- 3. Easements, or claims of easement, not shown by the Public Records; reservations or exceptions in patents or in Acts authorizing the issuance thereof, water rights, claims or title to water.
- Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land
- 5. Any lien for services, labor or material heretofore or hereafter furnished, or for contributions due to the State of Oregon for unemployment compensation or worker's compensation, imposed by law and not shown by the Public Records.

2006 AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (06-17-06) EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- by reason or:
 (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 (i) the occupancy, use, or enjoyment of the Land;
 (ii) the character, dimensions, or location of any improvement erected on the Land;

(iii) the subdivision of land; or
 (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
 Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
 Defects, liens, encumbrances, adverse claims, or other matters
 (a) created, suffered, assumed, or agreed to by the Insured Claimant;
- 2. 3

(b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
(c) resulting in no loss or damage to the Insured Claimant;
(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
(a) a fraudulent conveyance or fraudulent transfer; or
(b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.

- (b) a protocnast same policy. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A. 5.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

SCHEDULE B- GENERAL EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attomeys' fees or expenses) that arise by reason of:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- Facts, rights, interests or claims which are not shown by the Public Records but which could be ascertained by an inspection of the Land or by making inquiry of persons in possession thereof.
- З. Easements, or claims of easement, not shown by the Public Records; reservations or exceptions in patents or in Acts authorizing the issuance thereof, water rights, claims or title to water.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
- Any lien for services, labor or material heretofore or hereafter furnished, or for contributions due to the State of Oregon for unemployment compensation or worker's compensation, imposed by law and not shown by the Public Records.

FIDELITY NATIONAL FINANCIAL PRIVACY NOTICE

Fidelity National Financial, Inc. and its majority-owned subsidiary companies providing real estate- and loan-related services (collectively, "FNF", "our" or "we") respect and are committed to protecting your privacy. This Privacy Notice lets you know how and for what purposes your Personal Information (as defined herein) is being collected, processed and used by FNF. We pledge that we will take reasonable steps to ensure that your Personal Information will only be used in ways that are in compliance with this Privacy Notice. The provision of this Privacy Notice to you does not create any express or implied relationship, or create any express or implied duty or other obligation, between Fidelity National Financial, Inc. and you. See also **No Representations or Warranties** below.

This Privacy Notice is only in effect for any generic information and Personal Information collected and/or owned by FNF, including collection through any FNF website and any online features, services and/or programs offered by FNF (collectively, the "Website"). This Privacy Notice is not applicable to any other web pages, mobile applications, social media sites, email lists, generic information or Personal Information collected and/or owned by any entity other than FNF.

How Information is Collected

The types of personal information FNF collects may include, among other things (collectively, "Personal Information"): (1) contact information (*e.g.*, name, address, phone number, email address); (2) demographic information (*e.g.*, date of birth, gender marital status); (3) Internet protocol (or IP) address or device ID/UDID; (4) social security number (SSN), student ID (SIN), driver's license, passport, and other government ID numbers; (5) financial account information; and (6) information related to offenses or criminal convictions.

In the course of our business, we may collect Personal Information about you from the following sources:

- Applications or other forms we receive from you or your authorized representative;
- Information we receive from you through the Website;
- Information about your transactions with or services performed by us, our affiliates, or others; and
- From consumer or other reporting agencies and public records maintained by governmental entities that we either obtain directly from those entities, or from our affiliates or others.

Additional Ways Information is Collected Through the Website

Browser Log Files. Our servers automatically log each visitor to the Website and collect and record certain information about each visitor. This information may include IP address, browser language, browser type, operating system, domain names, browsing history (including time spent at a domain, time and date of your visit), referring/exit web pages and URLs, and number of clicks. The domain name and IP address reveal nothing personal about the user other than the IP address from which the user has accessed the Website.

Cookies. From time to time, FNF or other third parties may send a "cookie" to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive and that can be re-sent to the serving website on subsequent visits. A cookie, by itself, cannot read other data from your hard disk or read other cookie files already on your computer. A cookie, by itself, does not damage your system. We, our advertisers and other third parties may use cookies to identify and keep track of, among other things, those areas of the Website and third party websites that you have visited in the past in order to enhance your next visit to the Website. You

Privacy Notice Effective: January 6, 2015 can choose whether or not to accept cookies by changing the settings of your Internet browser, but some functionality of the Website may be impaired or not function as intended. See the <u>Third Party Opt Out</u> section below.

Web Beacons. Some of our web pages and electronic communications may contain images, which may or may not be visible to you, known as Web Beacons (sometimes referred to as "clear gifs"). Web Beacons collect only limited information that includes a cookie number; time and date of a page view; and a description of the page on which the Web Beacon resides. We may also carry Web Beacons placed by third party advertisers. These Web Beacons do not carry any Personal Information and are only used to track usage of the Website and activities associated with the Website. See the <u>Third Party Opt Out</u> section below.

Unique Identifier. We may assign you a unique internal identifier to help keep track of your future visits. We may use this information to gather aggregate demographic information about our visitors, and we may use it to personalize the information you see on the Website and some of the electronic communications you receive from us. We keep this information for our internal use, and this information is not shared with others.

Third Party Opt Out. Although we do not presently, in the future we may allow third-party companies to serve advertisements and/or collect certain anonymous information when you visit the Website. These companies may use non-personally identifiable information (*e.g.*, click stream information, browser type, time and date, subject of advertisements clicked or scrolled over) during your visits to the Website in order to provide advertisements about products and services likely to be of greater interest to you. These companies typically use a cookie or third party Web Beacon to collect this information, as further described above. Through these technologies, the third party may have access to and use non-personalized information about your online usage activity.

You can opt-out of certain online behavioral services through any one of the ways described below. After you opt-out, you may continue to receive advertisements, but those advertisements will no longer be as relevant to you.

- You can opt-out via the Network Advertising Initiative industry optout at <u>http://www.networkadvertising.org/</u>.
- You can opt-out via the Consumer Choice Page at <u>www.aboutads.info.</u>
- For those in the U.K., you can opt-out via the IAB UK's industry opt-out at www.youronlinechoices.com.
- You can configure your web browser (Chrome, Firefox, Internet Explorer, Safari, etc.) to delete and/or control the use of cookies.

More information can be found in the Help system of your browser. Note: If you opt-out as described above, you should not delete your cookies. If you delete your cookies, you will need to opt-out again.

Use of Personal Information

Information collected by FNF is used for three main purposes:

- To provide products and services to you or one or more third party service providers (collectively, "Third Parties") who are obtaining services on your behalf or in connection with a transaction involving you.
- To improve our products and services that we perform for you or for Third Parties.
- To communicate with you and to inform you about FNF's, FNF's affiliates and third parties' products and services.

When Information Is Disclosed By FNF

We may provide your Personal Information (excluding information we receive from consumer or other credit reporting agencies) to various individuals and companies, as permitted by law, without obtaining your prior authorization. Such laws do not allow consumers to restrict these disclosures. Disclosures may include, without limitation, the following:

- To agents, brokers, representatives, or others to provide you with services you have requested, and to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure in connection with an insurance transaction;
- To third-party contractors or service providers who provide services or perform marketing services or other functions on our behalf;
- To law enforcement or other governmental authority in connection with an investigation, or civil or criminal subpoenas or court orders; and/or
- To lenders, lien holders, judgment creditors, or other parties claiming an encumbrance or an interest in title whose claim or interest must be determined, settled, paid or released prior to a title or escrow closing.

In addition to the other times when we might disclose information about you, we might also disclose information when required by law or in the good-faith belief that such disclosure is necessary to: (1) comply with a legal process or applicable laws; (2) enforce this Privacy Notice; (3) respond to claims that any materials, documents, images, graphics, logos, designs, audio, video and any other information provided by you violates the rights of third parties; or (4) protect the rights, property or personal safety of FNF, its users or the public.

We maintain reasonable safeguards to keep the Personal Information that is disclosed to us secure. We provide Personal Information and non-Personal Information to our subsidiaries, affiliated companies, and other businesses or persons for the purposes of processing such information on our behalf and promoting the services of our trusted business partners, some or all of which may store your information on servers outside of the United States. We require that these parties agree to process such information in compliance with our Privacy Notice or in a similar, industry-standard manner, and we use reasonable efforts to limit their use of such information and to use other appropriate confidentiality and security measures. The use of your information by one of our trusted business partners may be subject to that party's own Privacy Notice. We do not, however, disclose information we collect from consumer or credit reporting agencies with our affiliates or others without your consent, in conformity with applicable law, unless such disclosure is otherwise permitted by law.

We also reserve the right to disclose Personal Information and/or non-Personal Information to take precautions against liability, investigate and defend against any third-party claims or allegations, assist government enforcement agencies, protect the security or integrity of the Website, and protect the rights, property, or personal safety of FNF, our users or others.

We reserve the right to transfer your Personal Information, as well as any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets. We also cannot make any representations regarding the use or transfer of your Personal Information or other information that we may have in the event of our bankruptcy, reorganization, insolvency, receivership or an assignment for the benefit of creditors, and you expressly agree and consent to the use and/or transfer of your Personal Information or other information in connection with a sale or transfer of some or all of our assets in any of the above described proceedings. Furthermore, we cannot and will not be responsible for any breach of security by any third parties or for any actions of any third parties that receive any of the information that is disclosed to us.

Information From Children

We do <u>not</u> collect Personal Information from any person that we know to be under the age of thirteen (13). Specifically, the Website is not intended or designed to attract children under the age of thirteen (13). You affirm that you are either more than 18 years of age, or an emancipated minor, or possess legal parental or guardian consent, and are fully able and competent to enter into the terms, conditions, obligations, affirmations, representations, and warranties set forth in this Privacy Notice, and to abide by and comply with this Privacy Notice. In any case, you affirm that you are over the age of 13, as **THE WEBSITE IS NOT INTENDED FOR CHILDREN UNDER 13 THAT ARE UNACCOMPANIED BY HIS OR HER PARENT OR LEGAL GUARDIAN**.

Parents should be aware that FNF's Privacy Notice will govern our use of Personal Information, but also that information that is voluntarily given by children – or others – in email exchanges, bulletin boards or the like may be used by <u>other parties</u> to generate unsolicited communications. FNF encourages all parents to instruct their children in the safe and responsible use of their Personal Information while using the Internet.

Privacy Outside the Website

The Website may contain various links to other websites, including links to various third party service providers. FNF is not and cannot be responsible for the privacy practices or the content of any of those other websites. Other than under agreements with certain reputable organizations and companies, and except for third party service providers whose services either we use or you voluntarily elect to utilize, we do not share any of the Personal Information that you provide to us with any of the websites to which the Website links, although we may share aggregate, non-Personal Information with those other third parties. Please check with those websites in order to determine their privacy policies and your rights under them.

European Union Users

If you are a citizen of the European Union, please note that we may transfer your Personal Information outside the European Union for use for any of the purposes described in this Privacy Notice. By providing FNF with your Personal Information, you consent to both our collection and such transfer of your Personal Information in accordance with this Privacy Notice.

Choices With Your Personal Information

Whether you submit Personal Information to FNF is entirely up to you. You may decide not to submit Personal Information, in which case FNF may not be able to provide certain services or products to you.

You may choose to prevent FNF from disclosing or using your Personal Information under certain circumstances ("opt out"). You may opt out of any disclosure or use of your Personal Information for purposes that are incompatible with the purpose(s) for which it was originally collected or for which you subsequently gave authorization by notifying us by one of the methods at the end of this Privacy Notice. Furthermore, even where your Personal Information is to be disclosed and used in accordance with the stated purposes in this Privacy Notice, you may elect to opt out of such disclosure to and use by a third party that is not acting as an agent of FNF. As described above, there are some uses from which you cannot opt-out.

Please note that opting out of the disclosure and use of your Personal Information as a prospective employee may prevent you from being hired as an employee by FNF to the extent that provision of your Personal Information is required to apply for an open position.

If FNF collects Personal Information from you, such information will not be disclosed or used by FNF for purposes that are incompatible with the purpose(s) for which it was originally collected or for which you

Privacy Notice Effective: January 6, 2015

FDOR0134.rdw

subsequently gave authorization unless you affirmatively consent to such disclosure and use.

You may opt out of online behavioral advertising by following the instructions set forth above under the above section "Additional Ways That Information Is Collected Through the Website," subsection "Third Party Opt Out."

Access and Correction

To access your Personal Information in the possession of FNF and correct inaccuracies of that information in our records, please contact us in the manner specified at the end of this Privacy Notice. We ask individuals to identify themselves and the information requested to be accessed and amended before processing such requests, and we may decline to process requests in limited circumstances as permitted by applicable privacy legislation.

Your California Privacy Rights

Under California's "Shine the Light" law, California residents who provide certain personally identifiable information in connection with obtaining products or services for personal, family or household use are entitled to request and obtain from us once a calendar year information about the customer information we shared, if any, with other businesses for their own direct marketing uses. If applicable, this information would include the categories of customer information and the names and addresses of those businesses with which we shared customer information for the immediately prior calendar year (*e.g.*, requests made in 2015 will receive information regarding 2014 sharing activities).

To obtain this information on behalf of FNF, please send an email message to <u>privacy@fnf.com</u> with "Request for California Privacy Information" in the subject line and in the body of your message. We will provide the requested information to you at your email address in response.

Please be aware that not all information sharing is covered by the "Shine the Light" requirements and only information on covered sharing will be included in our response.

Additionally, because we may collect your Personal Information from time to time, California's Online Privacy Protection Act requires us to disclose how we respond to "do not track" requests and other similar mechanisms. Currently, our policy is that we do not recognize "do not track" requests from Internet browsers and similar devices.

No Representations or Warranties

By providing this Privacy Notice, Fidelity National Financial, Inc. does not make any representations or warranties whatsoever concerning any

products or services provided to you by its majority-owned subsidiaries. In addition, you also expressly agree that your use of the Website is at your own risk. Any services provided to you by Fidelity National Financial, Inc. and/or the Website are provided "as is" and "as available" for your use, without representations or warranties of any kind, either express or implied, unless such warranties are legally incapable of exclusion. Fidelity National Financial, Inc. makes no representations or warranties that any services provided to you by it or the Website, or any services offered in connection with the Website are or will remain uninterrupted or error-free, that defects will be corrected, or that the web pages on or accessed through the Website, or the servers used in connection with the Website, are or will remain free from any viruses, worms, time bombs, drop dead devices, Trojan horses or other harmful components. Any liability of Fidelity National Financial, Inc. and your exclusive remedy with respect to the use of any product or service provided by Fidelity National Financial, Inc. including on or accessed through the Website, will be the re-performance of such service found to be inadequate.

Your Consent To This Privacy Notice

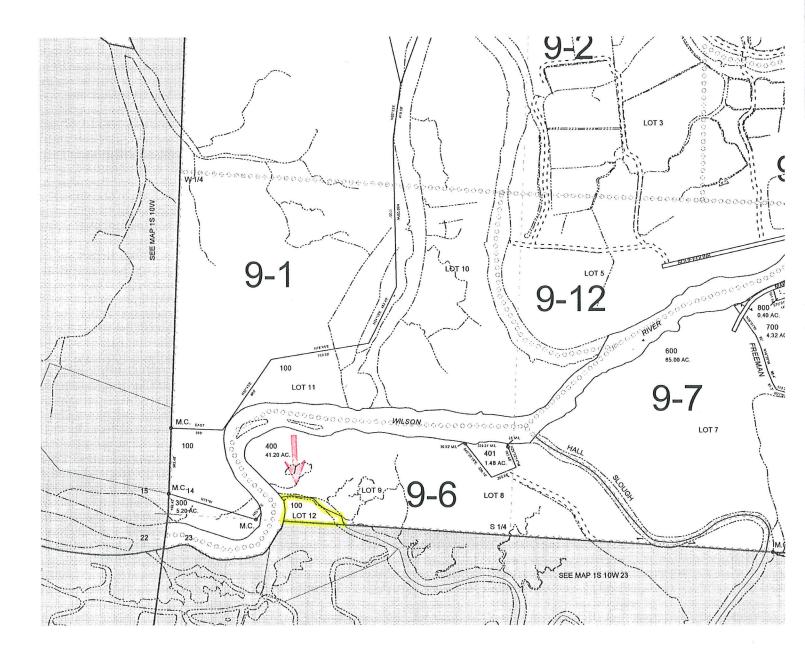

By submitting Personal Information to FNF, you consent to the collection and use of information by us as specified above or as we otherwise see fit, in compliance with this Privacy Notice, unless you inform us otherwise by means of the procedure identified below. If we decide to change this Privacy Notice, we will make an effort to post those changes on the Website. Each time we collect information from you following any amendment of this Privacy Notice will signify your assent to and acceptance of its revised terms for all previously collected information and information or feedback that you may submit in any manner that we may choose without notice or compensation to you. If you have additional questions or comments, please let us know by sending your comments or requests to:

Thank you for your business. Please contact EDR at 1-800-352-0050 with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental St Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2015 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

NO SITES FOUND

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 03/26/2015 Date Data Arrived at EDR: 04/08/2015 Date Made Active in Reports: 06/22/2015 Number of Days to Update: 75 Source: EPA Telephone: N/A Last EDR Contact: 07/09/2015 Next Scheduled EDR Contact: 10/19/2015 Data Release Frequency: Quarterly

EPA Region 10 Telephone 206-553-8665

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 06/09/2015 Date Data Arrived at EDR: 06/26/2015 Date Made Active in Reports: 09/16/2015 Number of Days to Update: 82 Source: Environmental Protection Agency Telephone: (206) 553-1200 Last EDR Contact: 06/26/2015 Next Scheduled EDR Contact: 10/12/2015 Data Release Frequency: Quarterly

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 06/09/2015 Date Data Arrived at EDR: 06/26/2015 Date Made Active in Reports: 09/16/2015 Number of Days to Update: 82 Source: Environmental Protection Agency Telephone: (206) 553-1200 Last EDR Contact: 06/26/2015 Next Scheduled EDR Contact: 10/12/2015 Data Release Frequency: Quarterly

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 06/09/2015 Date Data Arrived at EDR: 06/26/2015 Date Made Active in Reports: 09/16/2015 Number of Days to Update: 82 Source: Environmental Protection Agency Telephone: (206) 553-1200 Last EDR Contact: 06/26/2015 Next Scheduled EDR Contact: 10/12/2015 Data Release Frequency: Quarterly

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013 Date Data Arrived at EDR: 03/21/2014 Date Made Active in Reports: 06/17/2014 Number of Days to Update: 88 Source: Environmental Protection Agency Telephone: 617-520-3000 Last EDR Contact: 08/04/2015 Next Scheduled EDR Contact: 11/23/2015 Data Release Frequency: Quarterly

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013 Date Data Arrived at EDR: 03/03/2015 Date Made Active in Reports: 03/09/2015 Number of Days to Update: 6 Source: Environmental Protection Agency Telephone: 703-308-4044 Last EDR Contact: 05/14/2015 Next Scheduled EDR Contact: 08/24/2015 Data Release Frequency: Varies

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007 Number of Days to Update: 40

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

EDR US Hist Cleaners: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 08/01/2015

<u>USER QUESTIONNAIRE</u> PHASE I ENVIRONMENTAL SITE ASSESSMENT

1. Are you aware of any environmental cleanup liens that are filed or recorded against the property?

2. Are you aware of any Activity and Land Use Limitations, such as engineering controls, land use restrictions or institutional controls that are in place on the property and/or have been filed or recorded in a registry under federal, tribal, state or local law?

3. As the User of this ESA report, do you have any specialized knowledge or experience related to the property or nearby property? (For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?)

🗶 No 🗆 Yes

4. Does the purchase price being paid for this property reasonably reflect the fair market value of the

property?

 \Box No \bigvee Yes \Box Not applicable

If you conclude there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present on the property?

 \Box No \Box Yes Not applicable

USER QUESTIONNAIRE PHASE I ENVIRONMENTAL SITE ASSESSMENT

- 5. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional (preparer of the ESA report) to identify conditions indicative of releases or threatened releases? For example,
 - a.) Do you know the past uses of the property? ✔ No □ Yes
 - b.) Do you know of specific chemicals that are present or once were present at the property?
 - c.) Do you know of spills or other chemical releases on the property?
 - d.) Do you know of any environmental cleanups that have taken place at the property?
 ✗ No □ Yes

e.) Are you aware of any other conditions that may indicate release or threatened releases resulting in the contamination of the property?

🗶 No 🗆 Yes

6. As the User of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

X No □ Yes Wesque all Name

Contract Between User and Environmental Professional

April 14, 2015

Mr. Paul Levesque Tillamook County Chief of Staff 201 Laurel Avenue Tillamook OR 97141

PROPOSAL TO PROVIDE PHASE I ENVIRONMENTAL SITE ASSESSMENT Allen Property and Geinger Property Tillamook, Oregon

Dear Mr. Levesque:

We are pleased to submit this proposal to provide Phase I Environmental Site Assessment services for the above-referenced properties. The Phase I Site Assessments are being requested by Tillamook County prior to acquiring the properties through an OWEB grant.

The properties are located in two separate areas and each property is currently owned by a different party. AGI proposes to complete a separate report for each area (two reports total).

PROJECT APPROACH:

The purpose of the Phase I Environmental Site Assessment is to identify environmental concerns which may present a potential liability to the property owner/prospective purchaser under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), related state laws and regulations, and which may require further investigation. The scope of work is intended to permit the user of the report to satisfy one of the requirements to qualify for the *innocent landowner*, *contiguous property owner*, or *bona fide prospective purchaser* limitations on CERCLA liability, that is, the practice that constitutes "all appropriate inquiry (AAI) into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined at 42 USC §9601(35)(B).

SCOPE OF SERVICES:

The scope of work for this project includes a review of applicable Federal and State databases, a review of readily available records to document the past and current uses of the subject property and adjoining properties, interviews with persons with knowledge of the site, a site reconnaissance, and a final report summarizing our findings and conclusions. The project will be performed in accordance with ASTM Standard E1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.*

P.O. Box 649 Wilsonville, Oregon 97070 Ph: (503) 682-2500 Fax: (503) 682-2300 Mr. Paul Levesque Re: Allen and Geinger Properties, Tillamook, Oregon April 14, 2015 Page 2

AGI will provide the following specific scope of services for the property:

- 1. **INITIAL MEETING:** Meet or talk with the property owner or other key personnel to further discuss the project and to obtain any information which may be relevant to the site or adjoining land. An environmental questionnaire will be submitted to the current owner or their representative for completion. It is understood that the client will provide all known environmental information including current and former site use, hazardous wastes, specialized site knowledge, and knowledge of possible environmental liens on the subject property. Under the AAI standard, it is the responsibility of the report user to identify environmental liens on the property.
- 2. AGENCY FILE CHECK: Using a commercial database search provider, obtain a search of regulatory agency listings per the ASTM standard to identify known hazardous substance violations, contaminant discharges, environmental and institutional and engineering controls, and other environmental problems for varying distances based upon their relative potential impact to the subject properties.
- **3. GEOLOGIC RESEARCH:** Review available soils, geology, engineering, groundwater or other reports regarding the property and the immediate vicinity.
- 4. HISTORICAL REVIEW: Review aerial photographs of the sites and adjacent property to assess previous site conditions and operations (if available). Other historical information that may be reviewed includes Sanborn fire maps, city directories, building permits, or property title information (if provided by the client) to determine history of usage. Whenever feasible, the history of the property will be traced to 1940 or to a time prior to its earliest developed use, whichever is earlier.
- 5. PHYSICAL INSPECTION: Conduct one site visit by the environmental professional, during which the property and any structures will be visually inspected for potentially hazardous materials, existing in the past or present. A field checklist will be completed, and pertinent observations related to potential environmental conditions will be recorded. A reasonable attempt will be made to interview on-site managers, employees, tenants, occupants, or other persons familiar with the history of the property.
- 6. **REPORT**: A report will be prepared containing observations and conclusions relating to the apparent environmental conditions of the site. The report will include a description of site, CAD vicinity plan, conditions encountered, and documentation of resources including regulatory and historic records reviewed, opinion and conclusions. If appropriate, recommendations will be made in the text of the report, unless AGI is directed otherwise by the client.

Mr. Paul Levesque Re: Allen and Geinger Properties, Tillamook, Oregon April 14, 2015 Page 3

LIMITATION OF SCOPE:

The purpose of this phase of the work is to determine if more in-depth studies are to be developed. Observations will be made based on the best available information by trained professionals. It is not intended to be a comprehensive determination of all potential liabilities associated with a particular property, nor is it represented as a legal opinion as to the client's performance of "due diligence" concerning the purchase of real estate. Unless otherwise specified, the scope of work does not include a review/opinion of legal instruments such as indemnification agreements, purchase and sale agreements, liens, etc. Its cursory nature is to be noted by all parties. AGI is not responsible for inaccuracies of government records and other documents reviewed, nor for inaccuracies or lack of truthfulness of owners and prior owners who are interviewed.

Unless otherwise specified in this proposal, the scope of work for the project does not address the following items: hazardous materials audit, environmental compliance (unless directly related to potential CERCLA liability); indoor air quality, mold or radon; asbestos-containing building materials, lead-based paint, wetlands and other land use issues, geotechnical or geologic hazards, nor does it include subsurface exploration or chemical screening of soil and groundwater beneath the site which is needed to determine site contamination with scientific certainty.

It should be noted that, in order to qualify for *all appropriate inquiry* (AAI) and meet the ASTM standard, the user must provide a title report that includes a search for environmental liens, and complete a User Questionnaire.

AGI will utilize a commercial database search provider in the conduct of this project. Their report is subject to the limitations, constraints, inaccuracies and incompleteness of government information and of computer mapping data and conventions.

The findings and conclusions of this report are not scientific certainties but, rather, probabilities based on professional judgement concerning the significance of the data gathered during the course of the study. AGI is not able to represent that the subject property or adjoining land contain no hazardous waste, oil or other latent condition beyond that detected or observed by AGI during the study. The possibility always exists for contaminants to migrate undetected through surface water, air or groundwater. The ability to accurately address the environmental risk associated with transport in these media is beyond the scope of this study.

FEE:

Allen Property	
Geinger Property	• .
TOTAL FEE	

Mr. Paul Levesque Re: Allen and Geinger Properties, Tillamook, Oregon April 14, 2015 Page 4

The cost of reproduction, mileage, travel time, per diem and postage are included in the above flat fee. Two copies of each report will be provided. The indicated fee and the terms under which our services are provided will be in accordance with the attached General Terms and Conditions for Professional Services ("Terms and Conditions") dated 01/2012, which together with this proposal comprise the entire agreement between the parties. The Terms and Conditions may not be changed without the prior written consent of the parties.

The data and information contained in this document are proprietary, and shall not be duplicated, used or disclosed in whole or in part to other parties without AGI's permission.

SCHEDULE:

We anticipate that our services can be started immediately upon receipt of a signed copy of this proposal. Final written reports will be provided within five weeks of receiving notice to proceed.

You may indicate acceptance of this Agreement by returning a signed copy of this proposal or a purchase order incorporating the terms of the Agreement. A full, signed copy of the proposal can be emailed or faxed to my attention at (503) 682-2300. We appreciate this opportunity to submit our proposal to you and look forward to your favorable consideration. Please call me if you have any questions.

Sincerely,

Name (Please Print)

General Terms and Conditions for Professional Services (rev. 01/2012)

GENERAL TERMS AND CONDITIONS FOR PROFESSIONAL SERVICES

Attached to and part of our letter agreement to client outlining our specific scope of services:

The purpose of these General Terms and Conditions is to identify basic contractual obligations of Anderson Geological, Inc. (AGI) and Client for various professional consulting services, whereby AGI would be acting in the role of Consultant/Owner Representative for Client. Individual projects may require additional detailed descriptions of services to be provided as a supplement to this agreement.

1. <u>RATE SCHEDULE:</u> Fees for services are based on the number of hours expended on the project, including travel, by AGI personnel plus any reimbursable expenses.

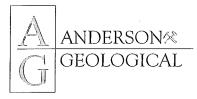

Hour	ly	Rate

1.	Registered Hydrogeologist/Geologist	95.00
2.	Field Geologist/Scientist	75.00
3.	CAD/Drafting	55.00
4.	Administrative Support	45.00

Court and arbitration time will be charged at two times above rates.

2. <u>REIMBURSABLE EXPENSES:</u>

- A. <u>Outside Services</u>. Subcontractor's services (soil borings, well installation, heavy equipment and operators, geophysical surveys) will be invoiced at cost plus 15 percent.
- B. <u>Supplies</u>. Charges for items not ordinarily furnished by AGI such as expendable equipment, rental equipment, subsistence, travel expenses, tolls, special fees, reproduction, permits, licenses, priority mail fees, and long-distance and wireless telephone calls will be invoiced at cost plus 10%.
- C. <u>Equipment</u>. Certain AGI-owned equipment (for sampling, testing, personal protective equipment, vehicle mileage, photocopying, etc.) may be required to complete the project. These will be invoiced at our standard rates without markup (rates available upon request). Current rates are as follows: vehicle mileage is \$0.50 per mile; photocopies are \$0.15 per copy; color copies are \$1.00 per copy. These rates are subject to change without notice.
- 3. <u>RIGHT OF ENTRY</u>: Unless otherwise agreed, the Client will furnish AGI right-of-entry on real property and be responsible for the propriety of the time, place, and manner of our entry upon the real property where we are to perform our services. AGI will take reasonable precautions to minimize damage to the real property from use of equipment, but have not included in the fee the cost of restoration, unless specifically included in our scope of work. If the Client desires AGI to restore the real property to its approximate former condition, we will accomplish this and add the cost plus 15 percent to our fee.
- 4. <u>BURIED UTILITIES:</u> AGI field personnel are trained to initiate field testing, drilling and/or sampling within a reasonable distance of each designated utility location. AGI field personnel will avoid hazards or utilities which are observed by them at the site. If AGI is advised in writing of the presence or potential presence of underground or above-ground obstructions, such as utilities, we will give special instructions to our field personnel. AGI is not responsible for any damage or loss due to undisclosed or unknown surface or subsurface conditions owned by client or third parties. The client will hold AGI and AGI subcontractors harmless from any loss resulting from inaccuracy of markings, of plans, or lack of plans, relating to the location of utilities. Utility locates typically require an advance notice of two full business days.
- 5. <u>WORKER'S COMPENSATION INSURANCE:</u> AGI will provide Worker's Compensation insurance (and/or Employer's Liability insurance) as required by state statutes.
- 6. <u>LIABILITY INSURANCE:</u> AGI carries comprehensive General Liability insurance which, subject to its terms and limits, may provide protection against liability arising out of bodily injury or property damage arising out of AGI operations. AGI makes no representations or warranties concerning the effect, applicability or scope of such insurance. Upon request in writing by Client to AGI, AGI will request its insurer to name Client as an additional insured on such policies and to issue certificates to Client to that effect. AGI makes no representations or warranties regarding any act by its insurer(s), and shall not be responsible for performing any act with respect to such insurance not specifically called for by this paragraph.
- 7. <u>PROFESSIONAL LIABILITY AND LIMITATION THEREOF</u>: This paragraph relates only to Professional Liability and not General Liability. In performing our professional services, we will use that standard of care and skill ordinarily recognized under similar circumstances by members of our profession in the state and region at the time the services are performed. No other warranty, either expressed or implied, is made in connection with our rendering of professional services.

- 8. <u>CONTRACTED WORK:</u> AGI, including its subconsultants, are retained hereunder for the limited purpose of performing certain environmental surveys, providing the results of such surveys to client, and making recommendations with respect to the data produced by the surveys. AGI is not responsible for the overall environmental status of Client's project, for the interpretation of the survey results by others, for any use of its reports by Client or others except as specifically set forth herein, or for any other matter not encompassed in the specific assignment given to AGI by Client. Any unauthorized use or distribution of AGI's work shall be at the Client and recipients sole risk. If Client desires to release, or for AG to provide, our report(s) to a third party not described above for that party's reliance, AGI will agree to such a release provided we receive written acceptance from such third party to be bound by acceptable terms and conditions similar to this agreement, in addition to a fee for extending our liability to a new party. The Client shall indemnify, defend and hold harmless AGI and its subconsultants from any claims, damages, costs, losses and expenses, including but not limited to attorney fees and costs on arbitration, trial or appeal arising out of unauthorized or third party use of AGI's reports.
- 9. SAMPLES: All samples will be discarded 30 days after submission of our final report unless other arrangements are made.
- 10. <u>PAYMENTS TO CONSULTANT:</u> Invoices will be submitted periodically for prior services. An account will become delinquent thirty days after date of billing. It is agreed that a late charge will be added to delinquent accounts at the rate of one-and-one-half percent (1-1/2%) for each thirty days delinquent (provided the rate of such late charge shall not exceed the maximum allowable by the laws of the state in which our office submitting the invoice is located).
- 11. <u>OTHER PROVISIONS:</u> Neither party shall hold the other responsible for delay in performance caused by acts of God, strikes, lockouts, weather, accidents, or other events beyond the control of the other or the other's employees and agents.

Waivers by either party of any provision, term, condition or covenant, shall not be construed by the other party as a waiver of a subsequent breach of the same by the other party by providing written notice. This agreement supersedes any contract language which may be issued by client as a matter of standard purchasing protocol without regard to the unique nature of professional services.

An opinion of construction, remediation and restoration costs prepared by AGI represents our judgment as a professional. Since we have no control over the cost of labor and material, or over competitive bidding or market conditions, we do not guarantee the accuracy of our opinion as compared to contractor bids of actual cost to the Client.

It is understood and agreed by both parties that AGI, in performing professional services for the Client with respect to hazardous substances, will make recommendations to the Client but does not have the authority or responsibility to decide where disposal or treatment takes place, nor to designate how or by whom the hazardous substances are to be transported for disposal or treatment. It is understood that AGI is not the generator or site operator and does not own the hazardous waste discovered, handled or removed from the owner's property. Client agrees under advice from client's counsel to timely disclosure to appropriate public agencies as required by law; any information that may be necessary to prevent damage to human health, safety, or the environment. Client agrees that AGI and its consultants are not responsible for the creation of the condition(s) AGI is being asked to investigate and that it would be unfair for AGI to be exposed to claims of injury or damage as a result of the conditions. In addition, Client understands that it is possible that exploration and investigation may fail to reveal the presence, location or source of the condition(s) being investigated even when the condition(s) is assumed or expected to exist. Client understands that AGI's failure to discover and/or locate the condition(s) or the spread of the condition(s) through appropriate and mutually agreed upon techniques does not guarantee that the condition(s) does or does not exist. Client agrees that it would be unfair to hold AGI liable for creating the condition(s) or the spread of the condition(s) providing AGI meets a reasonable standard of care and/or as described by supplemental proposal. Accordingly, Client Waives any resulting claims against AGI and its consultants, and agrees to defend, indemnify and hold harmless AGI and its consultants from any and all claims or liability for injury or loss arising from the creation of the original condition(s) or the unintentional exacerbation of the original condition(s) by AGI, the exacerbation of hazardous conditions by others, the discovery of any condition, location of any condition and/or allowing any condition to exist. Client also agrees to fairly compensate AGI and its consultants for any time spent and expenses incurred in the defense of any such claim.

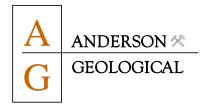

AGI does not provide legal opinions, and recommends client seek legal counsel for advice on issues such as the appropriateness of a particular scope of work to minimize legal liability, potential cost recovery from responsible parties, and to assess the value of maintaining attorney/client privilege for work conducted under this agreement.

In the event there is a dispute between AGI and the Client concerning the performance of any provision in this agreement, the losing party shall pay the prevailing party reasonable attorney's fees and costs on trial or appeal. In addition, Client agrees to pay AGI for all employee time, costs, and witness costs incurred for collection activity.

This agreement can be terminated at any time by either party. If terminated prior to the completion of a scope of work, AGI shall be entitled to its portion of fees for any work performed in accordance with the above rate schedule.

PROFESSIONAL EXPERIENCE

Mr. Anderson has more than 24 years experience in various phases of environmental assessments and environmental site investigations for a diverse group of clients in Oregon and Washington.

Erik has a broad technical background in environmental site investigations and remediation. His years of completing and managing more than 1,200 Phase I Environmental Site Assessments and more than 700 soil and groundwater investigations and cleanups have given him valuable insight and perspective into the issue of assessment and remediation of properties.

He has established a sound reputation and good working relationships with many state regulatory agencies and has managed many environmental investigations and remediation projects under the Oregon DEQ Voluntary Cleanup Program, Independent Cleanup Pathway, and the Site Response Section of DEQ, as well as numerous independent assessments and cleanups conducted without DEQ oversight.

WORK EXAMPLES - ERIK ANDERSON, R.G.

- Managed a Phase I Environmental Assessment, soil and groundwater investigation, Risk-Based Corrective Action, ecological risk assessment, and beneficial water use determination of a Brownfields site (gas station) purchased through FEMA, the Oregon Economic Community Development Department, and the City of Tillamook for use as a greenway, park, and wetlands.
- Completed a site investigation and DEQ closure under the Voluntary Cleanup Program of 55 acres of agricultural land contaminated with pesticides. The site was the proposed location of a health care center and educational facility.
- Completed the investigation and DEQ closure under the Voluntary Cleanup Program of a former industrial site in Salem, Oregon with gasoline, diesel, heavy oil, and chlorinated solvents in groundwater adjacent to a sensitive wetland.
- Managed a remedial investigation and feasibility study at an operating asphalt plant. Contaminants included free-product petroleum in groundwater that migrated onto an adjacent property.
- Installed, monitored, and obtained regulatory closure of a soil vapor extraction system for the remediation of PCE-contaminated soils at a commercial dry cleaning facility.
- Provided initial assessment and management of the removal of 1,000 tons of soil contaminated by an historic pesticide spill on Interstate 5 in The Dalles, Oregon. The soils were removed as part of the replacement of the bridge over Fifteen Mile Creek near The Dalles Dam.
- Managed a remedial investigation/feasibility study, performed the pilot testing, and designed the installation of a dual extraction groundwater remediation project in downtown Salem where a historic fuel release resulted in up to 11 inches of free product (gasoline) on the water table.
- Designed and managed the investigation of soils on an 11-acre automobile wrecking yard contaminated by petroleum hydrocarbons, chlorinated solvents, and lead.
- Served as team leader for geologic and hydrogeologic field mapping investigations for proposed stream and wetland improvements at Burnt Bridge Creek, Vancouver, Washington.
- Designed and managed the Site Characterization and Risk-Based Corrective Action Plan for gasoline UST release for a major food processing business. Release impacted a wetland and stream. Managed the completion of Level One and Level Two Ecological Risk Assessments to assess possible impact to wildlife.
- Designed and managed a pre-acquisition groundwater investigation for chlorinated solvents on two downtown city blocks for a 30-story high-rise office building. Installed deep groundwater monitoring wells in congested, high-traffic city streets.
- Managed Phase I Baseline Property Transaction Site Assessments on 25 Bonneville Power Administration electrical substations in Oregon, Washington, California and Montana.
- Conducted a Groundwater Assessment and Human Risk Assessment for a gasoline pipeline rupture in a Critical Ground Water Area in Washington County, Oregon. Obtained a No Further Action letter for the owner from the Oregon DEQ.
- Managed a 3,000 cubic-yard landfill remediation project on a commercial property, including investigation of soil and groundwater, periodic groundwater monitoring, waste profiling, remediation design, development of project specifications, bidding, contractor selection, and project management.
- Managed the investigation and successful completion of a Risk-Based Corrective Action which included a beneficial water use determination, at a former service station site with significant groundwater contamination by gasoline. The property was an operating bank branch with the groundwater contaminant plume partially beneath the building.
